

Project Development Phase Delivery of Sprint-1

TEAM ID	PNT2022TMID20931
PROJECT TITLE	INDUSTRY-SPECIFIC INTELLIGENT FIRE MANAGEMENT SYSTEM

BUILDING PHASE:

TO Create the Watson Assistant Service and IOT Platform:

The screenshot displays the IBM Cloud user interface. At the top, the IBM logo is on the left, and user account information (IBMId: nsgjivsy@gmail.com) is on the right. Below the header, the 'Products' section is visible, featuring a 'Trials' subsection with one offering, 'IBM Cloud', which is 'Active'. A 'Launch' button is present. To the right, a message states 'Let IBM provide you technology and business solutions to fit your needs' with a 'View catalog' button. Below this, a 'Dashboard' section is shown with a search bar and a 'Create resource' button. The dashboard includes a 'For you' section with several service cards: 'Build' (Explore IBM Cloud with this selection of easy starter tutorials and services), 'Build a web app with Watson Speech to Text' (Deploy a conversational interface compatible with any application, device, or channel), 'Get Started with Watson Studio' (Get started with using AI and Cloud Object Storage in 15 minutes), 'Build a Virtual Private Cloud (VPC)' (Upgrade to a paid account to create your own protected space in the IBM Cloud), 'Get Started with the CLI' (Install the IBM Cloud™ developer tools, which include the latest IBM Cloud CLI, verify the installation, and configure the environment), and 'IBM Watson Catalog' (Help you easily find and understand data throughout your enterprise). Each card includes a 'Getting started' button and a duration (e.g., 15 min, 2 hr, 1 min, 10 min). At the bottom, there are sections for 'User access' (Manage users), 'News' (WebSphere Application Server Support Restatement), and 'Planned maintenance' (View all).
